LANGUAGES EASILY LEARNED .- As is well known, children will bearn to speak three or four languages as readily as only one. Along with English, they will acquire French, Itslian and German, provided they are brought up in famil-German, provided they are brought up in familiar communication with individuals who speak these languages. At first they will, of course, make a sad jumble, not knowing one tongue from another; but in time they discriminate, and avoid any confusion. This is the true method of learning foreign languages; and the fact is evidenced by the growing practice in England of employing French and German nurses. Members of the Royal family, for instance, speak French and German indifferently with English, because they have been taught by foreign nurses.

The Russians are reputed to be the best linguists in Europe. Many of them are proficients

The Russians are reputed to be the best linguists in Europe. Many of them are proficients in half a dozen languages. This is chiefly owing to the practice of importing foreign attendants to the practice. Accordingly, a Russian lady or gentleman who does not speak English or French is a rantly. The simplicity with which a young family may in this manner be instructed in French or German, according to choice, is striking and satisfactory. What toil and cost are spared in future years! How young people would bless their parents for having been played, as it were, into speaking and reading with correctness one or two languages basides their own, and been thereby saved the torture their own, and been thereby saved the torture of laborious and often useless schooling. The fishermen on the cosst of Sussex and the opposite cosst of France etten have occasion

to change civilities at see. But how can they do, so, not knowing each other's language? Some do, so, not knowing each other's languager some years ago they got over the difficulty without cost or trouble, by an exceedingly simple and satisfactory process. They exchanged children. A Sussex man took the son of a Frenchman to A bussex man took the son of a Frenchman to board for a time in his family, and let the Frenchman have his son in return. In this accommodating way French fisher-boys learned English, and English fisher-boys learned French. It was a beautiful arrangement throughout, for besides any advantage derived from lingual intercommunication, feelings of good-will grow up. tercommunication, feelings of good-will grew up between the two nations.

MEDICINAL.

This important organ weighs but about three pounds, and all the blood in a living person (about three gailons) passes through it at least once every half hour, to have the him. And they is the halves purgative of the howeis and if the liver becomes termid it is boweis, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system. and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice. Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MER-RELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of evon a few deses upon Jellow complexion or a brown, dirty locking skin, will astonish all who try it—they being the first symp-toms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking Hepatine in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given. Take no pills when you can get Hepatine at the same price.  ${f BLOOD}$ 

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofuls, Syphilis, White Swelling, Ulcorous Sores and Skin Disesse in a thousand is treated without the use of Mercury in some form. Mercury rots
the bones, and the diseases it produces are
worse than any other kind of blood or skin
disease can be. Doctor PEMBERTON'S
STILLINGIA or QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer. \$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.
